

**Vendredi 12 juin – 18h30**  
**Salle polyvalente- Cité scolaire**

A surreal, chaotic scene of falling objects and a person in a cloudy sky. The background is a dense, swirling mass of white and yellow clouds. In the center, a silhouette of a person is falling with arms outstretched. Surrounding the person are various floating objects: a large, tilted clock face on the right, a framed picture of a black hole on the left, a book, a small airplane, and other debris. The overall atmosphere is one of a chaotic, time-related event.
